PROJECTS

MERN

Freelance :- futureiqra.in   2023-2024

- Futureiqra.in is an online educational platform offering a curated collection of pre-recorded lectures. As a Full Stack Developer, I played a pivotal role in the development and maintenance of the platform, ensuring a seamless user experience and robust functionality.
- **Authentication System:** Implemented a secure authentication system using Firebase, enhancing user privacy and data protection.
- **UI and UX Development:** Designed and developed intuitive user interfaces to improve user engagement and satisfaction.
- **Token Management:** Implemented token-based authentication to enhance security and streamline user sessions.
- **Server Management:** Managed server infrastructure to ensure optimal performance and scalability of the platform.
- **Payment Gateway Integration:** Integrated a payment gateway to facilitate secure and convenient transactions for users.

MERN

Freelance :- Link-Pod   2024-2024

- Linkpod is a LinkedIn extension that allows users to interact with LinkedIn posts seamlessly. As a backend developer on the Linkpod project, I contributed to the development of features such as post likes, comments, and interactions on behalf of the user.
- Authentication using the LinkedIn account
- Create Posts, Comments & Likes on the user's behalf
- Managed authentication system using token-based authentication and cookies.
- Collaborated with front-end developers to integrate back-end functionalities seamlessly.
- Ensured scalability and performance optimization of backend services.
- Implemented security measures to protect user data and ensure compliance with privacy regulations.
